

'Delivering Water Infrastructure Solutions'

PROJECT: Fulton Hogan Pacific Motorway Upgrade

VALUE: (AWD Contracted Works)

DURATION: 12 months

Allan Ward Drainage Pty Ltd (AWD) is the major Subcontractor onsite for the works on the Pacific Motorway Upgrade

Working closely with the Principle contractor (Fulton Hogan Pty Ltd), AWD have delivered all underground infrastructure to enable the successful commissioning

'Delivering Water Infrastructure Solutions'

Works include:

'Delivering Water Infrastructure Solutions'

Installation of pump stations and commissioning of sewer/drainage systems for buildings.

Installation of Fire main, Sewer Main, Non Potable and Potable water lines

AWD are very diverse in the field of civil infrastructure therefore have been able to deliver and successfully install many various types of materials including, Mild Steel, Ductile Iron, Polyethylene PVC and concrete on this project.

Key challenges overcome by AWD:

- Service conflicts
- Working closely with multiple contractors onsite
- Meeting the programmed deadline on time and within budget
- Handover of areas on programmed target

'Delivering Water Infrastructure Solutions'

100% of all pipelines installed have passed the pressure testing phase; pressure testing range varies from 350kpa for gravity to 1750kpa for fire fighting water mains.

Allan Ward Drainage have gone over and above requirements for our own Management Systems which confirm to the relevant Standards (ISO 9001/2008 – AS/NZS 4801 – AS/NZS 14001) and have successfully passed audits (by the Principle contractor) to The Australian Government Building and Construction OH+S Accreditation Scheme (Federal Accreditation). Including all relevant Codes/Australian Standards/Regulations and Acts.
